PROFESSIONAL EXPERIENCE

Full Stack Developer, [Dronacharya Career Academy](#)

04/2025 – 02/2026 | Remote

- Built and deployed a production-grade EdTech platform with mock tests, performance analytics, and current affairs modules using React.js, MUI, Node.js, Express, AWS Lambda, and MongoDB.
- Architected and deployed infrastructure on AWS (Lambda, S3, CloudFront) and Vercel, integrating secure Razorpay payments and scalable asset storage.
- Owned end-to-end product development, translating academy requirements into a live platform used by students for exam preparation and performance analysis.

Senior Software Engineer, Food Market Hub (FMH)

03/2024 – 12/2024 | Remote

- Led frontend architecture and development using React.js, Vue.js, Redux Toolkit and Atomic Design methodology, improving component reusability and application scalability.
- Mentored developers and conducted code reviews, ensuring high code quality and adherence to engineering best practices.

- Improved application performance and stability through optimizations such as lazy loading, memoization, and bundle size reduction.

Software Engineer, Food Market Hub (FMH Singapore)

07/2021 – 03/2024 | Remote

- Developed key features for a food and business management platform using React.js, Redux, and Vue.js Composition API.
- Built data-driven user interfaces and collaborated with cross-functional teams to deliver scalable frontend solutions.
- Improved application performance by debugging, profiling, and refactoring legacy components, resulting in ~25% faster load times.
